### CISM European Business Plan 2016-2017

#### Introduction

The overall direction for this BP is derived from the goals and objectives determined by the Strategic Plan. The Strategic Plan is the long term plan (2016-2019), the BP is meant to steer our decision making process in the short term for the coming 2 years. This BP must be reviewed yearly in order to monitor and track our progress and to help us understand where we need to adjust our expectations.

At Annex A you will find the BP Matrix identifying CISM European priorities for the next 2 years. It clearly delineates the tasks by the person or organization responsible for its execution and the timeline required in order to meet subsequent or concurrent tasks. This matrix must be monitored for completeness and must be reviewed annually.

#### Background

The CISM European Strategic Plan provides the direction and guidance used to develop the 2-year BP, with associated tasks and timelines. The BP in turn provides the structure to ensure we meet our priorities and commitments. This BP supports our Mission and Vision:

#### Mission

*CISM is the worldwide international Military Sport Organization devoted to bringing together Armed Forces personnel from all Nations through sports activities, thus enabling the physical training, military readiness and education for the Armed Forces.*
