CISM SAILING

DEVELOPING & PROMOTING CISM SAILING WORLDWIDE

Sailing is one of the old and exciting sport of CISM. The variety of venues and boats that we could use for sailing is what gives it the excitement and enjoyment as a sport. It also provides the opportunity for the military personnels from around the world to meet, compete and share the same fun and pleasure of sailing.

This is why, I, as the president of the sailing committee, think that we need to develop and promote this beautiful sport within CISM and make the events bigger and more attractive.

SUGGESTIONS & IDEAS:

- 1- More countries need to make efforts to participate in the CISM sailing regattas.
- 2- Other countries need to take their turn and organize the championship.
- 3- We need to be open and allow any organizing country to use the class of boats that is available.
- 4- Any host country must provide maximum help possible to facilitate participation for other countries.
- 5- We need to have a 3 year calendar showing who and where the championship will be taking place so that other countries plan ahead.
- 6- More countries need to be contacted and informed about the upcoming events.

OBJECTIVES:

- 1- Encourage and motivate other countries from Middle east and Africa to take part in the CISM sailing championships.
- 2- Choose venues that are reachable by all and support the host country organizing the championships if needed.
- 3- Maintain the high level and standard of CISM sailing.
- 4- Increase the gathering, strength and peace through sailing.

I hope that I could have your support to promote sailing in CISM and take it to a higher level.

Thanks to you all for your presence and I wish you all success.
